Chairman’s Message & Key Developments
Commenting on the Company performance, Mr. Ketan Patel, Chairman & Managing Director of Creative Newtech said:

“The second quarter of this financial year witnessed significant recovery from the lockdown in the first quarter. Infact, after June being one of our highest ever monthly sales, we registered strong sales July onwards as well. In the quarter ended September 2021, we reported a 110.76% YoY growth in revenue at Rs. 241.21 cr, with EBITDA and net profit growing 111.16% and 181.46% YoY to Rs. 8.67 cr and Rs. 5.80 cr, respectively. While this is mainly since the second quarter of last year was severely impacted by the nationwide lockdown, growth was also supported by strong demand for brands like Samsung, Cooler Master and Honeywell.

Going into the third quarter, markets are opening up substantially and demand has been picking momentum. We continue to refresh our brand portfolio with new and high-potential products. One of the recent additions in our portfolio is Hyperice Inc., a US-based specialist in muscle recovery and massage products. These associations are in line with our strategy to continually update and diversify our product portfolio to keep it relevant to the ongoing times and trends. Synergies from our Honeywell portfolio are also beginning to show and we foresee and strong upswing in this in the coming quarters. These developments, coupled with our progress in Ckart, gives an optimistic view for the next quarter. While the consumer sentiment is still cautious as there is speculation of a third wave of the pandemic, the overall market scenario is improving. The Company is well positioned to cater to the domestic as well as international markets while keeping a lean and efficient business model, thereby ensuring long-term, sustainable growth for all stakeholders. I would like to thank the entire team for their dedication and for coming together during such uncertain times.”
